Aug-2024

## Summary

Aspiring Full Stack MERN Developer with hands-on training at Full Stack Learning, experienced in building real-world web applications using MongoDB, Express.js, React, and Node.js. Skilled in creating responsive UIs, integrating RESTful APIs, and developing robust backend systems. Passionate about clean code, seamless user experiences, and continuous learning.

## Experience

FullStackLearning

August-2024

intern

Jaipur

At Full Stack Learning, Jaipur (Aug 2024 – Present), I built and deployed MERN stack applications with responsive UIs using React, Tailwind CSS, and Bootstrap. I integrated RESTful APIs, implemented JWT-based authentication, and handled backend logic with MongoDB, routing, and error management. Collaborated in agile sprints, code reviews, and deployed projects on platforms like Vercel and Render.

## Projects

### Social\_Media

🔗 <https://social-media-1-mfvc.onrender.com>

- Secure OAuth 2.0 login (Google, GitHub, LinkedIn)
- JWT-based protected routes and real-time updates
- React UI for posts, likes, comments, and connections
- Deployed on Render for high availability

### Ecommerce-Fullstack

🔗 <https://ecommercefullstack-front.onrender.com/>

- Category-wise product listings with filtering and sorting
- Search bar for quick product discovery
- Detailed product page with image, price, description, and "Add to Cart"
- Shopping cart with quantity updates and item removal
- User authentication (Login/Register) using JWT

### Quiz-Score

🔗 <https://rishijangir566.github.io/QuizFullStack/>

- User Registration & Login with secure JWT-based authentication
- Quiz Dashboard showing available quizzes
- Start Quiz: Multiple-choice interface with timer (optional)
- Instant Score Calculation after quiz completion
